Q-2] Write a program to create HTTP server which can communicate between client and the server.

```
const http = require("http");  
const server = http.createServer((req, res) =>  
  { console.log(req.url)  
    res.end("success from server");  
  });  
server.listen(8002, "127.0.0.1", () =>  
  { console.log("Listening....");  
  });
```
