Compus - Dehradun

Subject - Full stack web development Practical

Sem-3rd

Section-B.

Question 2 Write a Program to Create an HTTP Server which can Communicate between Client and the Server.

Solution:-

```
const http = require("http")
const Server = http.createServer((req, res) => {
  if (req.url === "/" )
    res.end("You are at home page")
  else if (req.url === "/Contact")
    res.end("You are at Contacts")
  else
    res.writeHead(404)
    res.end()
})
Server.listen(4002, "127.0.0.1", () => {
  console.log("Listening to the Server")
})
```
